J. GODFREY, Proprietor.

Meals at All Hours, Day or Night.

OYSTERS IN EVERY STYLE.

The public can rest assured that the Palace Restaurant will be maintained in a first-class manner.

THE EUROPEAN SITUATION.

The Atlantic War Talk, but in England there is a fear of weakness.

While it is generally admitted that 1894 has been a year of retrogression in Great Britain, both in material prosperity and national prestige, the year 1891 will be remembered with strong hope and confidence. Even those who fear and suspect war have this feeling in a large measure. Even war would remove the curse of idleness, which, an influential deputation told the prime minister this week, is the greatest burden upon the nation.

It is one of the significant signs of the hour that the present generation, which knows nothing of war, has no conception of its horrors. It is not going too far to say that if it were not for the prevailing fear of the inadequacy of the British armament a considerable portion of the English people would at heart welcome the war which, nearly all agree, is threatened by the present conditions. The reason for this sanguinary sentiment is the fact that the English people are poor, poorer than ever before in these latter days.

In spite of this still growing feeling of threatened trouble, no fact of any description pointing to an international quarrel has come to light recently. All bellicose talk is still in the air only, and while the popular dread is perhaps a little more deep and widespread than in similar crises in recent years it will be well to remember that the expected seldom happens in such cases. It is remarkable how undisturbed some war alarms have become. Even Mr. Astor's able pen has caught the fever. It is only in a credit to the Pall Mall Gazette with sincerity when it said in a warning leader yesterday:

What we have to understand as a nation is that for the present we stand almost alone in Europe, and that the future is black with uncertain menaces.

The most significant recent utterance, in the opinion of the London press, is that of the pope when he said to the cardinals and prelates offering Christmas greetings, "If peace and charity have disappeared, we must not despair."

The tendency is, however, to give these words both a broader and more specific meaning than his holiness probably intended to convey.—New York Sun's London Letter.

LAW AGAINST SENTIMENT.

Lord Herschell's Bill Eliminating Romance From Breach of Promise Suits.

The lord chancellor, I hear, is credited with the intention of preparing a bill to do away with sentimental breach of promise actions and to limit the right of invoking the law in such matters to cases where it can be proved that actual pecuniary loss has been incurred by reason of the unfulfilled promise.

If Lord Herschell's bill ever becomes an act, every shred of romance will of course be eliminated from such actions as come before the courts after it has passed, and breach of promise will lose the fascination which it has so long exercised upon the public mind.

On the other hand, juries will be spared the delicate and invidious task of estimating the value of a lacerated heart in current coin of the realm, and counsel will be relieved of the necessity of talking a great deal of sentimental nonsense that must be terribly trying to their sense of humor.—Lady's Pictorial.

Ceylon Tea.

It appears that some of the Ceylon tea planters are making an organized attempt to obtain a sale for their tea in the London market. A parcel of seven bags of that article was offered at the drug sales recently, but no one seemed to know what to do with it, and although the broker declared his belief that the drug was "a favorite medicine in China" the audience remained unmoved. Nevertheless the teased might have been worth purchasing for the sake of the bland oil which it contains, to the extent of about 35 per cent by weight, and which resembles olive oil in color and somewhat in taste. The seeds are about the size of a cherry stone, subglobular in shape and of a deep brown color. The oil would be useful for burning or lubricating.—London Chronicle and Druggist.

Children Cry for Pitcher's Castoria.

President Dole

Says that Cleveland and Hill are not in it, and that C. W. will sell goods at the following cash prices:

18 pounds of fine granulated sugar \$1 00
5 cans of best tomatoes 1 00

Reliable men who were importuned to join the Republican Club were informed that the object in organizing so early in the year was to get the wool-growers and weak-minded committed to Wall street ideas. "The Wilson bill," they argued, "is now brought prominently to the front, and as our side is endeavoring to make it appear that the tariff is the cause of the business and industrial depression the time is auspicious and many will now commit themselves who will not do so later in the year." The club was organized and every device known to precinct slatemen adopted to get the wool-growers and the wavering to join it. The advice of ex-Congressman Dantine was sought and he suggested that while the Republican party was irrevocably pledged against free coinage a strong silver resolution should be adopted by the club. This was somewhat embarrassing as the club had adopted a resolution proclaiming the Silver men enemies of the State, but as the object was to get the membership regardless of principles, and impress Senator Jones upon his arrival here with the numerical strength of the organization, men who had publicly declared themselves against free coinage agree for the time to permit their names to be attached to an address in favor of silver remonetization. It is to be hoped that wool-growers especially will not be deceived by the political manipulators of the so-called Republican Club. They have no just cause for complaint against the Silver party. There is not a Silver newspaper in the State that advocates free wool. On the contrary, each and all of those papers are opposed to putting wool or any other Nevada protected product on the free list. Congressman Newlands, the representative of the Silver party in the House of Representatives, is opposed to it, and Senator Stewart who was elected by that party, has said nothing that indicates that he is in favor of it. As his vote may decide the fate of the bill in the Senate wool men should not be deceived by politicians into signing resolutions and joining a club that misrepresents him and the party whose standard he bore aloft in the last campaign in Nevada. Wool-growers should remember that every silver paper in the State published the resolutions adopted at their annual meeting with favorable comments, which is more than the gold-bug papers did. Silver men also signed their petition to Congress against a reduction of the tariff on wool, and have done nothing whatever to injure their or any other industry in the State, which is more than some of the gold-bug members of the club can say. Why then could anybody directly or indirectly engaged in any industry in the State, whether protected or not, append his name to a resolution or become a member of an organization that proclaims that the Silver party "is injuring the cause of bimetalism and retarding the growth of the State generally."

CONDITION OF NATIONAL BANKS.
A statement of the condition of National banks on December 19th, 1893, has been issued from the office of the Comptroller of the Currency at Washington. The number of banks reporting is 3,787, and their aggregate resources are \$3,242,313,627, which is much more money than there is in the United States. The report for December 9, 1892, the last made that year, shows that there were then 3,784 banks in operation, with resources amounting to \$3,480,349,667. The net gain was three banks, the smallest since 1878, and the net loss in resources was \$251,253,340. The amount of specie held by the banks in December, 1893, was \$251,253,618, against \$209,895,260 in December, 1892. The amount due depositors was \$1,539,390,795 for the year. Last year was particularly severe on banks of all kinds and a large number failed or went into voluntary liquidation. The gain in National banks ranged from 60 to 221 a year from 1878 to 1893, when, as stated, there was a net gain of only three.

THE WILSON BILL.
The Wilson bill passed the House yesterday by a vote of 203 to 140. As a full House consists of 356 members, 13 did not vote on the bill. A few Democrats voted against the bill, probably about the same number as there were Republicans who voted for free coinage, therefore, according to the reasoning of Nevada Republicans, the Democratic party must be in favor of protection. The original bill was amended in Committee of the Whole by making the Internal Revenue bill a part of it. This includes the income tax feature, which is a part of the Revenue bill. It imposes a tax of two per cent on all incomes, including salaries of officials, which exceed \$1,000 a year. The bill now goes to the Senate, and, as the previous question and gag rules generally are not tolerated in that body, a final vote may not be reached before next summer. Whether or not it will pass the Senate is problematic. That body is very nearly equally divided politically, the Democrats having 44 members—just one-half a full Senate. It is believed that some of the Democratic Senators will vote against the bill and there is not much probability of its passing the Senate in its present form.

BOND SUBSCRIPTIONS.
Secretary Carlisle advertised for proposals for \$50,000,000 United States five per cent bonds. Opinions disagree as to his authority to issue those bonds, but Wall Street seems willing to take them, feeling assured of its ability to control the law-making power. It is accordingly announced with a great flourish of trumpets that the proposed bond loan is a success. The offers aggregate about \$60,000,000. In addition to bids received a week or ten days ago, New York on Wednesday offered to take \$46,000,000 and Chicago, Boston and other money centers want more or less of the bonds at a premium. The time for receiving proposals for bonds has expired, but none have yet been issued, and probably will not be until the Senate disposes of Stewart's resolution denying the authority of the Secretary of the Treasury to dispose of them.

THE LAW AND ORDER LEAGUE OF JACKSONVILLE, FLORIDA, holds that the injunction granted by Judge Call was an infraction of the statutes. If the authorities do not bring the matter up for review in the Supreme Court the League will do so. It proposes prosecuting the principals, aiders and abettors in the Corbett-Mitchell fight. The principals were arrested after the fight was over and held under bonds.

CONGRESSIONAL PROCEEDINGS.
HILL PRESENTS A RESOLUTION.—The Wilson bill passes the House as Amended. WASHINGTON, February 1.—The Senate galleries were crowded when Hill of New York presented a resolution from the New York Legislature congratulating the President on his abandonment of the Hawaiian policy and protesting against the Wilson bill. Allen presented a resolution directing the Secretary of the Treasury to inform the Senate what amount of Government paper money had been redeemed since 1875, and how much, if any, was reissued. Peffer introduced a resolution directing the Secretary of the Treasury to inform the Senate how many offers of bonds purchasers had been presented, giving names and places of business of persons or firms, and for what amounts bonds had been sold.

A wrangle took place over Stewart's bond resolution through a misunderstanding as to when it should come up. It was finally permitted by unanimous consent and Stewart then took the floor on the resolution. **THE WILSON BILL PASSES THE HOUSE.** In the House the tariff debate closed on the Wilson bill with a burst of oratory. Crisp, Reed and Wilson came forward in the closing hours to argue for and against the inauguration of the new economical system. The galleries of the House were crowded long before the session opened. The leaders on both sides were accorded an ovation as they entered the hall. Reed began by saying the bill was odious to both sides of the House. It meets with favor nowhere and commands the respect of neither party. On this side we believe while it pretends to be for protection it does not afford it, and on the other side they believe while it looks toward free trade, it does not accomplish it. Those who will vote against the bill will do so because it opens our markets to destructive competition of foreigners. Those who vote for it will do so with the reservation that they will instantly devote themselves to a new crusade against whatever barriers are left.

Reed proceeded by saying the argument that the bill should be passed to put an end to the doubt, which was worse than any bill can be, was insidious, as was the bill passed by both branches to-day, uncertainty would reign just the same. He then proceeded to argue at length on the benefits of the tariff from the standard of wages for the American laborer and for the American farmer. Throughout Reed's speech he was frequently interrupted by applause, and even the Democrats at times joined in the laughter at his witticisms. At the close he was greeted with a spontaneous and long continued burst of applause and was warmly congratulated by his friends. While the demonstration was still in progress Crisp relinquished the chair to Hatch of Missouri and took a seat on the floor of the House. When order was restored he was recognized to reply to Reed. Until he warmed up he spoke with hesitation, but as he became warmed up his words came in a perfect torrent, sweeping resistlessly over all opposition, and he was encouraged by the hearty applause of his Democratic associates. His points, however, were of an argumentative order, calculated to appeal to students of the question rather than to the galleries. He declared that while the protective system was built up ostensibly for the benefit of labor, it was actually for the benefit of the manufacturing classes, and pointing out that the wages of labor in protected industries went down, while those in unprotected went up, as a result in the McKinley Act. He referred to the artificial condition produced by protection, which was a Chinese wall, not only shutting out the world, but shutting in the United States. Crisp said that for twenty-five years the Democratic party had been trying to get into power. It told the people if given power it would reduce the burdensome taxation. This tariff was the redemption of these pledges. It was not a perfect bill, but was a step in the right direction. Referring to the various features of the bill, he spoke of the income tax, which was greeted with vociferous applause by the adherents of that measure.

Crisp closed with an eloquent appeal to his Democratic associates to waive minor objections and look at the great Democratic principle involved. Wilson, Chairman of the Ways and Means Committee, at once arose to close the debate. He was greeted with great cheers. He opened with sarcastic replies to Burrows and Dooliver. Turning to the subject in hand he eloquently portrayed the advance of freedom. "This bill," he said, "is one of those advances. No McKinley bill could stem the advance of human progress. Great causes could not be laughed or ridiculed away and the gentleman from Maine could not draw from his armory of sarcasm and wit to stop the advance of this cause of lightening burdensome taxation." Referring to the income tax Wilson said he did not want it attached to his bill, but once attached he supported it loyally. There was continued applause as Wilson denied the charges of sectionalism in the bill, and closed with an eloquent appeal to his fellow Democrats, saying that in passing the bill the House would permanently record no mere passing event, but a great epoch in American history. As Wilson closed Tucker and several others sprang forward, and as wave after wave of applause echoed through the chamber, lifted him from his feet to their shoulders and bore him up the aisle. When let down he received the enthusiastic congratulations of his confederates. It was a demonstration such as is seldom seen in Congress. Business was at a standstill for twenty minutes on account of the disorder. Finally the floors were cleared and preparation was made for voting. Bartlett was the first Democrat to vote against the bill. Tremendous cheering greeted Bourke Cockran when he voted for the bill. The Republicans loudly cheered Geary (Dem.) of California when he voted "No."

The tariff bill, with the internal revenue and income tax features, passed—200 to 132. On second roll call the bill passed—203 ayes, 140 nays. **Telegraphic Notes.** London papers declare that Gladstone is about to resign as Prime Minister of England. Solomon Mass, a Frankfort banker who failed a few days since for a very large amount, was yesterday arrested. At Becker, Mo., yesterday Henry Fries shot and killed his father-in-law, John Schultz, and afterwards blew his own brains out. Dr. Herz of the Panama Canal scandal is having published three volumes of letters which will implicate many prominent officials. At San Jose night before last a burglar entered the room of M. Salva, a hotel keeper, and badly choked him, after which he secured \$300 in money. Gresham yesterday received a dispatch from Minister Thompson at Rio Janeiro confirming the details of the encounter of Admiral Benham with Admiral de Gama. At Del Monte night before last G. D. Carlos was awakened by a burglar in his house. The burglar shot him in the breast and leg while Carlos peppered the other with pistol balls. The burglar escaped. The Fresno *Expositor* last evening published a statement giving the movements of Evans and Morrell from January 22d to the 29th, inclusive. Thursday of last week they worked all day in J. N. Alburn's mine at Sampson Flat and were paid by him for their services. The next day they visited the school at Sampson Flat and played with the pupils. **Prof. W. O. Pearce.** Organ registration and manipulation taught thoroughly. Organ tuning and repairing a specialty. Special attention given to beginners on the piano. Leave orders at C. J. Brookins' music store. **School of Art.** Mrs. Hartley's School of Art; class days, Fridays and Saturdays; lessons, mornings and afternoons in drawing, oil painting, water colors, pastel crayon, etc., sketching from nature. Studio, Nevada Bank building. j12m1dw

A Gentleman
Who formerly resided in Connecticut, but who now resides in Honolulu, writes: "For 20 years past, my wife and I have used Ayer's Hair Vigor, and we attribute to it the dark hair which she and I now have, while hundreds of our acquaintances, ten or a dozen years younger than we, are either gray-headed, white, or bald. When asked how our hair has retained its color and fullness, we reply, 'By the use of Ayer's Hair Vigor—nothing else.'" "In 1868, my advanced was nearly bald, and the hair kept falling out every day. I induced her to use Ayer's Hair Vigor, and very soon, it not only checked any further loss of hair, but produced an entirely new growth, which has remained luxuriant and glossy to this day. I can recommend this preparation to all in need of a genuine hair-restorer. It is all that it is claimed to be."—Antonio Alarun, Bastrop, Tex.

AYER'S HAIR VIGOR

BREVITIES.

Joe skates at all prices at Lange & Schmidt's.

Hon. Wm. Woodburn came down from Carson last evening.

The World's Fair expenses amounted at Chicago to over \$26,000,000.

Ex-Governor Jewett Adams came down from Carson last evening.

An assessment of 15 cents per share has been levied on Gould & Curry.

Attention is directed to the Viavi advertisement in another column.

As a blood purifier, Ayer's Sarsaparilla surpasses all other remedies.

N. J. Roff returned last evening from San Francisco, where he has been several months for his health.

It is reported that twelve University students have the measles. There are a number of cases about town.

Mild but always effective, Ayer's Pills are indispensable as a family medicine, both for children and adults.

Enviied for her splendid hair, Mrs. Catherine Reischer of Canton, Ohio, was waylaid by two men, who clipped it off.

The Postmaster at Dubuque, Iowa, suspended a mail-carrier for fifteen days for incivility to people on his route.

Yesterday fourteen cars of sheep were shipped to San Francisco. Eleven cars of the sheep were from Humboldt county.

The Truckee Republican says John Crowley and Thomas Shelly were instantly killed by a cave in a mine near Sierra City last Friday.

If you want a good fitting pair of boots or shoes—no scab work from strangers—go to H. F. Pavola, who is reliable and no stranger.

The largest assortment of heating stoves, parlor stoves, cook stoves and ranges, crockery and lamps at panic prices at Lange & Schmidt's.

Five wolves and two tons of rabbits were killed in a general wolf chase and rabbit hunt at Smith county, Kansas, one day week before last.

Mrs. R. D. Jackson, wife of Prof. Jackson of the University, went below last evening to visit her relatives in Oakland and see the Midwinter Fair.

Warden Frank Bell was in town yesterday, and last evening continued on to San Francisco, where he will spend a few days seeing the Midwinter Fair.

Whatever may be the cause of blanching, the hair may be restored to its original color by the use of that potent remedy Hall's Vegetable Siccilian Hair Renewer.

At Louisville, Kentucky, Mollie Roache's life was insured for \$2,000. Being out of employment and having a mother to support, she hanged herself so that her mother would get the insurance money.

Four boys of reputable families have been arrested at Colfax, Washington, for burglaries. They had a robber's cave, planned on that of Tom Sawyer, where no end of booty, including 100 door keys, was found.

The people of Leon, Mexico, began to celebrate the 318th anniversary of the founding of that city on the 21st ult. Bull and chicken fights, races, concerts, balls, receptions and other attractions have been kept up to date.

None of the names of the fifty persons who voted the silver ticket last election and who, it is alleged, joined the Republican Club, has for some reason been published. Possibly they are held in reserve until Senator Jones passes through on his way back to Washington.

F. Lemmon, who has a large ranch in the valley that bears his name, and whose cattle range from Peavine to Pyramid, paid a visit to the JOURNAL office yesterday to square accounts with the printer, as all good men do. He says cattle are doing well on the ranges and he anticipates a big crop of calves next Spring.

THE WHITE HORSE MINES.

What is Being Done in That District. The Wadsworth Dispatch has the following relative to the White Horse mines:

There are twenty-two men now working in the White Horse mines.

E. Z. Bailey will start a tunnel on the Porphyry Hill claim this week.

The Royal extension has a number of rich stringers showing a good result from a little prospecting.

Dave Washem went up to the Pay Car Monday to begin operations again to develop the encouraging prospect on that claim.

Gregory and Bower are making improvements at White Horse City and will put up another building as soon as the weather permits.

The Royal tunnel is in thirty feet and has an eighteen inch ledge of gold bearing quartz which improves as the tunnel advances.

Harry Perdue and Frank Rhodes have a good prospect in the Crescent which parallels the Jim Blaine. Mr. Parino has sent samples of surface croppings to an assayer.

Jim Poole and John Werner have pitched their tent in a sunny vale and stocked it with provisions for the winter. They will prospect the country at the headquarters of the Black Tiger.

Shepley Brothers are figuring on sinking forty or fifty feet on the Black Point and then running a drift of fifty feet from the bottom of the shaft to prospect their claim. They are asking for contract figures but the proposition will go likely begging for a taker as the miners now in the district are all employed.

The Washoe tunnel is in eighty feet leaving seventy to go before they expect to cut the main ledge. A number of encouraging stringers have been cut. The interest centers considerably on the Jim Blaine drift and the Washoe tunnel.

The "Fast mail," the Bower Jackass, is the life of the city. He browsed this week on a box of giant caps, a coil of fuse and a half box of dynamite.

Jim Gregory says when they want to develop Andy Russell's Manhattan they will steer the jackass in that direction, as long as he's primed, touch him off and blow a hole in the 'hatten. Be just like 'em.

Charlie Washem has a ten foot prospect hole on the Emma L. Some very rich specimens have come from this claim which has a ledge from one to two feet wide. It is rich and Charlie expects to hammer out enough gold with a motor to buy him a mill.

The Mexicans working in the Adde C have a shaft down forty feet and in cross-cutting struck a ledge of three feet of pay rock. They do not talk much but have shown samples of the quartz to numerous parties who say it will go from \$40 up.

Ned Gregory was down from the Jim Blaine Sunday attending to business matters for that company. The east drift on the 100 foot level is now in over thirty feet but what has been encountered in the drift will remain the exclusive news of the Jim Blaine company until the parties controlling the mine see fit to make information public.

PUBLIC SCHOOL EXHIBIT.

A Circular to School Trustees and Teachers.

Professor Ring, State Superintendent of Public Instructions, has issued a circular to School Trustees and teachers in which he says:

"The Midwinter Fair is now open in San Francisco and the State of Nevada is making a very creditable display of her mining and agricultural resources in a fine building of her own.

"In order to round out the Nevada exhibit, the interests of the State demand that there should be something done in the educational line, in order to show that we have schools as well as mines and fields of grain.

"School-Trustees are respectfully urged to appropriate sufficient funds to purchase the necessary paper, pay for the binding, and the transportation of the exhibit to Reno.

"All of the teachers in each county are appointed to try and make as creditable a showing as they can on a moment's notice.

"J. E. Bray, Mrs. L. C. Booth and Miss Helena Joy, of Reno, were appointed a special committee to select and recommend the paper to be used and attend to such other details as might be necessary.

"The following are among the recommendations made by the committee.

"Let each grade prepare work in two or more branches, illustrating the work as much as possible by drawings, maps, etc., made by the pupil's own hand.

"The plan embraces manuscripts, maps, plans of buildings and grounds, photographs of buildings, giving exterior and interior views, photographs of boards of education, faculties, teachers, and groups of pupils.

"Nevada Day at the Fair is to be March 22d. We would like to have the exhibit in place at that time if possible.

"Let all friends of education in the State take hold and make the exhibit a success.

"Let the work be sent in time to reach me on or before the 15th of March, 1894."

Paid Up.

The San Francisco Chronicle publishes a letter signed by Marcus Fredrick and F. L. Gould of Reno, acknowledging the receipt of \$5,000 and \$2,500 respectively, in payment of their winning ticket in the Original Little Louisiana Lottery Company which won one-half of the capital prize.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Royal Baking Powder

ABSOLUTELY PURE

REGULATIONS FOR LENT.

Archbishop Riordan Issues the Yearly Instructions to His Flock.

Archbishop Riordan has issued the following regulations for Lent:

All the faithful who have completed their twenty-first year are, unless legitimately dispensed, bound to observe the fast of Lent.

All days of Lent, Sundays excepted, are fast days of obligation on one meal.

By dispensation granted August 3, 1887, for ten years, flesh meat is allowed at the principal meal on all days of Lent except Wednesdays, Fridays, Ember Saturday and the Saturday of Holy Week.

The use of flesh meat and fish is forbidden at the same meal, even on Sundays.

At the collation it is permitted to use bread, all kinds of fruit, vegetables and fish, and by dispensation granted February 9, 1887, for ten years, the use of butter, cheese, milk and eggs is also permitted.

The use of lard is permitted in preparing food on all days throughout the year.

When the principal meal cannot be taken at midday it may be taken in the evening, and the collation in the morning.

All persons under twenty-one years and over sixty years of age, those who are engaged in hard labor, the sick and convalescent and those who cannot fast without injury to their health, are exempt from the obligation of fasting.

Those who are not bound to fast may use flesh meat more than once each day on which it is prohibited.

Those who have any reasonable doubt as to their obligation to fast or to abstain should consult their confessor.

The time for fulfilling the precept of Easter Communion extends in the archdiocese from the first Sunday in Lent to the end of the Octave of Pentecost.

The rectors of the diocese are requested to have Lenten devotions in their churches on the Wednesday, Friday and Sunday evenings of each week.

PRACTICAL SMELTING.

A Probability that it Will be Taught at the University.

It is probable that practical smelting will be added to the curriculum at the School of Mines at the University.

Professor Jackson, who has charge of that department, has had a quartz mill built and it is now in practical operation.

The mill was built by the students under Professor Jackson's supervision and the Board of Regents will very likely add a smelter so that the students can be practically educated in the art of reducing and smelting ores by every process now in practical use.

It will be of great benefit to the State to have a number of its young men skilled in practical metallurgy.

Mining is and ever will be one of the principal industries of Nevada and it is desirable, in fact almost essential, that young men who intend to reside in the State and engage in the development of its mineral resources should know how to treat ores to the best advantage.

AGAINST SHEEP MEN.

An Injunction Against Them Made Perpetual.

The Enterprise says Judge Virden of Mono county, California, decided sheep could not be watered in a creek which had been used for irrigating purposes by a rancher near Bridgeport. His decision was sustained by the Supreme Court. The evidence showed that the watering of bands of sheep in the creek during the summer disturbed the bottom of the stream and sent large quantities of debris flowing over the rancher's land, destroying a portion of the crop. The injunction against the sheep men was made perpetual.

A Happy and Welcome Reunion.

Past Grand N. J. Roff of Reno Lodge No. 19, I. O. O. F., who has been on a visit to California, returned last evening and was met by the officers and members of his lodge to the number of about fifty and conducted to a carriage in waiting, which was followed by the brothers in a column of twos, marching to their lodge hall where each and every member gave the brother a true Odd Fellow's greeting.

Mr. Roff has returned somewhat improved in health and the hearty welcome given him was fully appreciated.

AN OBJECT LESSON.

The Power of the Money Kings and What They are Trying to do.

The people of this country are experiencing an object lesson which shows them how completely they and their property are at the mercy of the money power. The money sharks of Europe and the interest gatherers of the North-eastern section of the United States hold securities against the people and property which calls for twenty times as much legal tender as there is in existence. One year's interest on these securities would absorb every dollar of legal tender in the United States. This places these security holders in a position where they can call in all the available legal tender and lock it up. They can then call on their debtors to settle up. The debtors, of course, cannot do so until their property at any price the bondholder in his tender mercy may place upon it. At the present time there are seventy-five railroad companies in the United States that are in the hands of receivers for defaulting interest on their bonds. The total liabilities on these seventy-five railroads are \$1,886,629,520 or about \$200,000,000 more than the total amount of legal tender in the United States. As the security holders already have possession of two-thirds of the money of the country it can be readily seen who will have the power to name the price at which this property will be sold. The money power is straining every nerve to have the McKinley law repealed so they can lay the cause of the tough times to a change in the tariff, hoping thereby to drown the cries of a plundered people in another fierce sham battle over the tariff. FARMER.

Not In It.

I am informed that my name is among those who are reported to have joined the Republican Club. If the information is correct, a mistake has been made, as I am for Free Coinage and the Silver party now, as I was two years ago.

In this connection I would state that I am not in favor of the Wilson bill, though I do not believe that it makes any difference whether we have tariff or not if we do not have more money in circulation.

W. J. BRANDON,
RENO, February 1, 1894.

Sarcasm.

Matt Riehm writes the Gazette Publishing Company in relation to the Republican forlorn hope which has just spontaneously arisen. "I must say I admire their pluck and perseverance. They remind me of the original signers of the Declaration of Independence." This is like the old lady who studied one of her granddaughter's drawings, which had been shown her, in admiring perplexity, and finally said, "It is either a cow or a rosebud, I can't just tell which."

The Anxious Seat.

The Carson Tribune contains a long communication from a "Republican" who in great anxiety wants to know if Senator Jones is "still with us," and who desires to hear it uttered in "no uncertain tones."

The JOURNAL physician prescribes paregoric and Mrs. Winslow's soothing syrup to be administered with a force pump.

The Ladies

Pronounce Cocoma Cream the best of toilet creams to promote the beauty of the skin, and gentlemen find it excellent after shaving. Every one should have a bottle as it is very fragrant and effective for keeping the skin soft, white and beautiful. Only 50 cents a bottle.

Bucklen's Arnica Salve.

The best salve in the world for Cuts, Bruises, Scres, Ulcers, Salt Rheum, Fever Sores, Tetters, Chapped Hands, Chilblains, Corns, and all skin Eruptions, and positively cures Piles or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by S. J. Hodgkinson.

Shut the Door.

You hear it constantly. People feel he draughts but they never think of the over drafts upon nature which impairs the digestive organs and makes the use of Simmon's Liver Regulator necessary to move the liver to action, and aid the digestive and assimilative powers of the body. The Regulator is the medicine for all disorders of the stomach. Try it and be convinced.

BREVITIES.

The Carson Tribune says it is rumored that Col. C. C. Thomas will be succeeded as Superintendent of the Comstock Tunnel Co. by a resident of New York.

Melbourne the rainmaker's proposition to the Cheyenne people is to furnish not less than ten inches of rain in each of the years 1894, 1895 and 1896 for a fee of \$5,000, \$7,500 and \$10,000 in each successive year. No pay unless the rain is furnished to cover an area of eighty by fifty-two miles.

Henry Weeks, a Klamath Indian horse thief, was discharged by United States Commissioner Parrish upon the interpretation of an old Indian custom, that one Indian may appropriate another's goods and chattels provided he afterward makes satisfactory restitution.

Spectamen Cases.

S. H. Clifford, New Cassel, Wis., was troubled with neuralgia and rheumatism, his stomach was disordered, his liver was affected to an alarming degree, appetite fell away, and he was terribly reduced in flesh and strength. Three bottles of Electric Bitters cured him.

Edward Shepherd, Harrisburg, Ill., had a running sore on his leg of eight years' standing. Used three bottles of Electric Bitters and seven boxes of Bucklen's Arnica Salve, and his leg is sound and well. John Speaker, Catawba, O., had five large fever sores on his leg and doctors said he was incurable. One bottle of Electric Bitters and one box Bucklen's Arnica Salve cured him entirely. Sold at S. J. Hodgkinson's drug store.

Now Try This.

It will cost you nothing and will surely do you good, if you have a cough, cold, or any trouble with throat, chest or lungs. Dr. King's New Discovery for Consumption, coughs and colds is guaranteed to give relief, or money will be paid back. Sufferers from lagrippe found it just the thing and under its use had a speedy and perfect recovery. Try a sample bottle at our expense and learn for yourself just how good a thing it is. Trial bottles free at S. J. Hodgkinson's drug store. Large size 50c. and \$1.00.

Dr. C. J. Mullen.

Office on Second street, near post-office. Hours: 10 A. M. to 2 P. M. Sundays and evenings by appointment only. no28tf

Invalid 3 Years, Cured by Hood's

"C. I. Hood & Co., Lowell, Mass.: 'Gentlemen:—I am glad to tell you that I have been given good health by Hood's Sarsaparilla. For three years I was invalid, suffering terribly from Nervousness and Lameness. I was so nervous, I could not bear the least noise, and I had to walk with crutches for six months, as I could not put one of my feet to the floor. Physicians did not do me any good, so a friend told me to get Hood's Sarsaparilla, but I said There Was No Use. However, after thinking the matter over, I decided to give it a trial, and have taken six bottles of Hood's Sarsaparilla, and the result is that I am well as any one could wish to be, and can do any kind of work. I advise all my friends to take Hood's Sarsaparilla for I believe it will do them good.' MISS SARIE DORRIS, Colton, California.

Hood's Pills cure liver ills, constipation, biliousness, jaundice, sick headache, indigestion.

A LONG WALK.

A Penniless Family Passes Through Chicago on a Six Hundred Mile Trip.

W. H. H. Rhodes, 34 years old and determined, Mrs. Lydia Ann Packard, 14 years old, a sister of Mr. Rhodes and Louis L. Rhodes, 12 years old, and Ira Irwin Rhodes, 10 years old, tired and hungry, completed half of a 600 mile walk Wednesday night and slept for the first time in three weeks in a warm place.

Rhodes, his two sons and sister are on the way to Cameron county, Wis., and left Dayton, O., Dec. 5. They reached Englewood about 6 o'clock last evening and were directed to the police station, where they were given supper and lodgings. Rhodes told an interesting story. "I was engaged in a little business in Cameron county, Wis.," he said. "In July I got a letter from a brother whom I had not seen in 24 years, in which he urged me to come to Dayton, O. He told me that I would find employment there and that he would send me the money to get there. When I got there, he told me to wait. He didn't do any more, and I couldn't do any more. I was there, and I was among friends that were strangers, and so I decided to come back. My sister's husband having died, she was alone and wanted to come with me. I hadn't any money, so we decided to walk. We left Dayton Dec. 5 and have walked every step of the 300 miles. Two nights we were without fire, and only four nights have we slept in houses. We make from 10 to 15 miles a day and hope to get to our destination next month. Sometimes we get money, and at South Englewood \$2.50 was raised for us. I can make money in Wisconsin, and my sister will keep house for me."

The family started out early Thursday morning on the tramp of the other 27 miles.—Chicago Letter.

NEW FIGHTING MACHINES.

Automatic Iron Soldiers That Can Shoot Forty Times a Minute.

A fighting machine or automaton soldier is the last work up to now of civilization. Nobody in future need risk his life in battle—that is, if a newspaper of Barcelona is not misinformed as to the merits of a new invention. According to that journal, the inventor has offered it to the Spanish government for use against the Moors in Melilla. He is ready, for a sum of \$200,000 sterling, to proceed to the seat of operations at the head of 100 of the new combatants.

The machine soldier is made of iron, and he is set going by clockwork. When wound up, he can fire 40 rounds a minute, and he carries in his interior a large supply of ammunition. Should he be captured by the enemy, he can be blown to pieces by means of an electric discharge acting upon a quantity of dynamite stored in his head.

The paper seriously declares that the capabilities of the new warrior have been successfully tested before a committee of experts.

Whistles in Sword Hilt.

The new tactics adopted for the army contemplate the giving of commands by whistle under certain circumstances, instead of by word of mouth. Consequently infantry officers have received a intimation from the acting chief of ordnance that they are expected to provide themselves with whistles at their own cost. The order says:

"The major general commanding the army, having approved the introduction of a whistle in the cross piece of the guard of the sword for infantry officers, desires to inform you that the commanding officers of Springfield armory and Rock Island arsenal have been instructed to make this alteration as promptly as possible upon the receipt of the arms. The cost, which will be paid by the owner of the sword, will be about \$3.75 each for lots of 50 or more, but the expense will necessarily be greater where work is conducted on but few swords at a time."—Washington Cor. Buffalo Courier.

Train Robber Perry in a Madhouse.

Oliver Curtis Perry, the notorious train robber, was a passenger recently on the Central train from the west. He was on his way from Auburn prison to the asylum for insane criminals at Mattawan. He was chained hand and foot, and the burly officers guarded him. Everybody about the depot has glanced into the smoking car to catch a glimpse of the daring desperado whose exploits are still fresh in the minds of all. The prison officials have, it is said, considered Perry insane for some time. He has given a good deal of trouble at Auburn and has been subjected to severe discipline there. He appeared quite calm on the train.—Utica Press.

BALD HEADS!

What is the condition of yours? Is your hair dry, harsh, brittle? Does it split at the ends? Has it a lifeless appearance? Does it fall out when combed or brushed? Is it full of dandruff? Does your scalp itch? Is it dry or in a heated condition? If these are some of your symptoms be warned in time or you will become bald.

Skookum Root Hair Grower

It is what you need. Its production is not an accident, but the result of scientific research. Knowledge of the diseases of the hair and scalp led to the discovery of how to treat them. "Skookum" contains neither mineral nor oil. It is not a dye, but a delightfully cooling and refreshing tonic. By attacking the follicles, it stops falling hair, cures dandruff and grows hair on bald heads.

It keeps the scalp clean, healthy, and free from irritating eruptions by the use of Skookum Root Hair Grower. It destroys parasitic insects, which feed on and destroy the hair.

If your druggist cannot supply you send direct to us, and we will forward prepaid, on receipt of price. Grower, \$1.00 per bottle; 6 for \$5.00. Send 5c for trial.

AN ISLAND THAT GROWS.

Once It Belonged to Missouri, but Now It Is Part of Kansas.

In the Missouri river, near Leavenworth, there is an island which has furnished the land law officers of the government a novel problem. This island was on the Missouri side when it was surveyed in 1858. Now it is a part of Kansas. But that is not the queer thing about it. It is a part of the Missouri frequently shift their allegiance.

The trouble with this island is that it has been growing. When the government officers surveyed it, they found 500 acres, and that was the amount entered in the records. When two Leavenworth men, Skilling and Duffendorf, took out patents for the whole island the amount of land put in the patents was 600 acres. But the island has been growing through all of these years in a way Missouri river islands have a fashion of doing. There are now 1,400 acres in the island. A corollary, it has been discovered, runs under the island, and that tends to make the land more valuable.

Recently squatters have tried to take possession of the surplus over and above the 500 acres claimed by the patentees. The latter set up a claim to the growth. The land lawyers of the government, after taking plenty of time to think about the case, have decided that Skilling and Duffendorf are entitled to the whole island under their original patents.—St. Louis Globe-Democrat.

Jackson Park.

During the entire summer of 1894 the main exhibition buildings will stand in Jackson park. The public will be admitted everywhere in the park free. The work of beautifying the park will progress steadily. On the first day of the new year the park commissioners assumed control. All state and foreign buildings will be out of the north end of the grounds by May 1. The commissioners will at once begin the work of restoring that end of the park to its former appearance and continue to improve it. What may be done to the buildings the following year cannot be said. The board will take no action on that matter for some time.—Chicago Letter.

Ex-Cabinet Officers in the Senate.

There are an even half dozen ex-cabinet officers in the senate, and they comprise some pretty able men. Only one of the six is a Democrat, and that is Vilas of Wisconsin, who played the dual role of secretary of the interior and postmaster general during the first Cleveland reign. Proctor of Vermont was the warrior of the Harrison administration, Chandler of New Hampshire was secretary of the navy under Arthur, and Teller of Colorado secretary of the interior under the same regime. Cameron of Pennsylvania was secretary of the treasury under President Grant, and John Sherman was President Hayes' financial secretary.

WHY HOOD'S? Because Hood's Sarsaparilla is the best, most reliable and accomplishes the greatest cures. HOOD'S CURES

Cures About Respiration.

In each respiration an adult of the human species inhales one pint of air. A healthy man will respire 16 to 20 times per minute, or, say, 20,000 times a day; a child, 25 to 35 times per minute. While standing, the adult average respiration is 23 times per minute; lying down, 18 times. The superficial area of the lungs—that is, of their alveolar space—averages 200 square yards. The amount of air respired each day is about 10,000 quarts.

The amount of oxygen absorbed in the same length of time is 600 liters, or about 744 grams. The amount of carbonic acid expired in 24 hours is estimated at 511.5 grams. Two-thirds of the oxygen absorbed in 24 hours is taken in during the 12 hours from 6 p. m. to 6 a. m., three-fifths of the total being thrown off during the day. While this is going on the pulmonary surface is throwing off 150 grams of water in the shape of vapor. The heart sends 800 quarts of blood through the lungs every hour, or about 5,000 quarts daily.

The duration of inspiration is five-twelfths, of expiration seven-twelfths, of the whole respiratory act.—St. Louis Republic.

Battles of the Future.

Writers on military science unite in claiming that future battles will begin with a series of hot skirmishes along the front. These skirmishes will gradually increase in heat and the number of combatants, reinforcements being sent according to circumstances, until the entire front is involved. Artillery will be used as far as possible, but the battle is fully under way little use can be made of cavalry save in outflanking. The day of charges in wars is over, on account of the increase of range and effect in cannon and rifle. Little can be predicted of future battles beyond opening, for much as the result must now be left to the experts.—New York Ledger.

When Jack calls on Miss Eleanor, He always brings her plenty Of flowers and chocolate boubons, which Most charm the maid of twenty.

And though Sir Jack has skinny arms, And legs as thin as pheasants, How could one blame Miss Eleanor, Who much admires his presents?

No woman has any real admiration for a man's presence unless he has a good physique—legs and arms well filled out. You can't be well looking if you suffer from any of the diseases caused by a disordered liver or impure blood—dyspepsia, biliousness, and scrofulous affections. Dr. Pierce's Golden Medical Discovery is a medicine that cures these cases. It's the only remedy that is guaranteed to benefit or cure, in every case, or the money refunded. Medical science stamps it absolutely potent as a blood cleanser, strength-restorer and flesh-builder.

The worst nasal catarrh, no matter how long standing, is permanently cured by Dr. Sage's Catarrh Remedy.

VIQOR OF MEN

Weakness, Nervelessness, Debility, and all the train of evils which result from a disordered liver, given to every man a full and complete course of treatment.
